

DAY TRIPS IN THE CAIRNGORMS

"Your day can be completely tailored to the species and areas you hope to see. Or let us decide and we'll take you to the special nooks and crannies that we know, for the best the Cairngorms has to offer. This is a great way to get to know the area and discover what makes Speyside so special!"
Ailie Brown

Dates	To suit you, subject to guide availability and preferred itinerary. Our website will show which days are available
Guides	We have local guides who know the wildlife of the Cairngorms and around Scotland, so can tailor the day to highlight your interests
Cost	£225 standard day if booked online (£275 if booked manually via our office) £295 extended day if booked online (£350 if booked manually via our office)
Included	Wildlife guide on an exclusive basis for you and up to 6 guests. Transport for the day in comfortable 8-seater minibus or car
Packages	Tailor-made packages, including meals, accommodation etc. can be arranged to suit your budget - just ask and we'll be delighted to put a quote together for you
Insects	Midges and ticks in the spring/summer
Weather	Weather varies from cold to warm and sunny (-5°-25°C), with less rainfall than much of Scotland but snow possible in the mountains
Walking	Most walks will be on wide sandy tracks, except in the Cairngorm Mountains, where terrain is more steep and uneven, so walking boots are essential. Your guide will discuss walking options with you beforehand

Just some of what you could see:

Red-throated Diver	Golden Plover
Black-throated Diver	Dipper
Slavonian Grebe	Ring Ouzel
Golden Eagle	Cuckoo
White-tailed Eagle	Crested Tit
Osprey	Scottish Crossbill
Merlin	Snow Bunting
Peregrine	Red Squirrel
Hen Harrier	Mountain Hare
Ptarmigan	Otter
Black Grouse	Red Deer
Red Grouse	Roe Deer
Dotterel	Bottlenose Dolphin

Simon Eaves: Crossbill, **Colin Scott:** Ptarmigan
Jane Hope: Crested Tit, Lochindorb
Duncan Macdonald: Redshank

The Cairngorms National Park is home to some of our most iconic species of wildlife. Our expert guides know the area intimately and can help you find the species you'd most like to see.

- Our expert guides have a wealth of knowledge about the wildlife of Scotland
- Book your own private guide and comfortable minibus for up to seven guests
- Target the species you want to see in the Cairngorms National Park and wider area
- Collection from your local accommodation or meeting place of your choice
- Combine this with an evening wildlife watching for Badger and Pine Marten
- Ideal for families, small groups, couples or individuals
- Perfect gift for birthdays, anniversaries, retirement etc.

The Cairngorms National Park is home to some of our most iconic but elusive species of wildlife. Finding them in this vast and spectacular landscape can be a real challenge, especially if you have limited time or are unfamiliar with the area. Our expert local guides know the area intimately, so can take you to the best locations to help you find the species you'd most like to see. Your guide will use their experience and field skills, including listening to bird calls and recognising animal tracks and signs, to help you find and identify species. They can tell you about behaviour and general biology of the species that you find in the Highlands.

We can provide an itinerary that matches your specific wildlife wishes. Alternatively, if you'd just like to see a diverse range of Highland species, then leave that to us. On the day, we'll judge the weather and decide where the wildlife can be found. In our comfortable 8-seater minibuses, we'll take you through different habitats to find the best wildlife. The day can include as much, or as little walking as you'd like.

Two or three days before your day out, your guide will contact you to discuss what you'd like to see and any specific requests that you may have. They'll also agree a start time with you and the best place to meet. This may be from your accommodation in the Grantown-Aviemore-Kingussie area, but it

may be elsewhere, depending on the itinerary you decide upon. Standard days out last around eight hours (normally 9am-5pm) and Extended Days around 10 hours.

To help you choose the best day, we've given you our suggested itineraries, showing the different habitats you could visit and some of the species that can be found there. These are our favourites, but if you'd like to do something different, or do a combination of different itineraries, then please email us or discuss it with your guide when they get in touch with you.

If you're staying outwith the Spey Valley, we can organise an exclusive day out, subject to mileage and guide availability and give you a specific price.

"Each season has something special to offer. We may come across Black Grouse during a spring morning, or search for Dotterel on the mountain tops during the summer months. During autumn we watch roaring rutting Stags in Highland Glens and winter is a great season to see foraging Crested Tits in our Pine Forests." Ailie Brown

Our Cairngorms National Park - If you've never been before and you want to see what makes this place special, from the landscape, to the wildlife, then just leave it to us. We know all the nooks and crannies in the Cairngorms and the best time of year to visit them. We'll make sure we target the Scottish specialities and leave more than enough room to drink in the scenery and marvel at the landscape. Golden Eagles in the glens, Red Deer on the hills, Ptarmigan on the mountains and Crested Tits in the forests; we can decide what's best for you.

Pine Forest - Visit the ancient Caledonian Pine Forest for Crested Tit, Scottish Crossbill and maybe even the chance of the elusive Capercaillie. Mammals may include Red Squirrel and Roe Deer. This itinerary involves a degree of walking on good tracks and trails through the forest. Wildlife can be found year round, but the best seasons can be autumn, winter and spring.

Woodland Walks - Local woods provide tranquil locations to look and listen for Wood Warbler, Pied Flycatcher and other woodland birds in the spring. Ospreys are regularly seen throughout the spring/summer. This itinerary does require a reasonable degree of fitness. The best time to visit for migrant birds is from late April through to August.

Highland Glen - Visit a spectacular local glen for Golden Eagle, White-tailed Eagle, Peregrine, Merlin, Ring Ouzel, Red Deer, Mountain Hare and Red Kite. We drive through spectacular scenery into the heart of the mountains and then take a low level walk further into the glen on good gravel

tracks. A broad range of wildlife, including the eagles, can be found all year. The Red Deer rut takes place from late September through October.

Cairngorm Mountains - To search for Ptarmigan, Snow Bunting, Dotterel and Ring Ouzel we have to walk into the Corries. The walk is on paths, but does require suitable clothing and walking shoes or boots, as the terrain is uneven. Wildlife can be seen on the higher tops year-round. Ptarmigan, Snow Bunting and Mountain Hare are present all year; Ring Ouzels arrive from mid-March onwards and Dotterel are present from May until early August.

Moorland and Moray Firth - Early morning in the spring is the time to see Black Grouse in the foothills on the vast open moorlands. We scan windswept lochs for divers, Merlin, Peregrine, Red Kite and Red Grouse, before heading to the Moray coast for Osprey (during the summer), seaduck (winter), waders and terns. Dependent on tide times, there's a chance of Bottlenose Dolphin. Divers can be found on freshwater lochs during the breeding season from April through to the end of September, when they relocate to the coast and winter on the sea. The winter months on the Moray coast can be excellent for seaduck.

The Black Isle - Just north of Inverness lies the Black Isle, almost surrounded by water and visited by large numbers of waders, ducks and geese as autumn approaches and through the winter. Peregrine Falcons may dash through sending birds skyward - all viewable from a large comfortable hide. Scaup, Long-tailed Duck, divers and grebes

spend the winter here and in autumn passing skuas and auks add to the excitement as we visit one of the best vantage points for Bottlenose Dolphins in the UK.

All Abilities Cairngorms National Park - This tailored day will ensure where possible, that everyone in your group can experience the scenery and wildlife that our National Park has to offer. We shall visit places that require little walking or are suitable for wheelchair access to help you experience wildlife in comfort. It may mean some of the day involves more travelling by vehicle than other itineraries, but some short walks or lookout hides will be utilised and the guide will structure the day to best suit your needs. The wildlife you experience may include Dippers, Red Squirrel, raptor species such as Red Kite and eagles, grouse and Roe and Red Deer.

Capercaillie Policy

Capercaillie can be found in the forests of the Cairngorms National Park, but they are, for whatever reason, a declining species that are easily disturbed. We minimise any disturbance at crucial times to help protect the birds, by adhering to the following policies:

We won't take guests into known Capercaillie habitat during the lekking period (1 March - 31 May). Outside these dates, when going into potential Capercaillie habitat, we always stay on marked tracks and paths and never go off these. When there is an alpha male (also known as a 'rogue' bird) in the area we won't go to see this bird. They are part of the lek, so we would be 'knowingly' disturbing them.

Through the autumn and winter months, young birds will have fledged and dispersed into the forests, however, to conserve energy, Capercaillie are active for as little as four hours a day, so if we do encounter them we shall stay still, quiet and let them move off by themselves.
