

# RAPTORS OF THE HIGHLANDS

"I saw my first Golden Eagle when I was eight years old in Strathdearn and I can still picture it now. Taking our guests to Strathdearn and watching eagles over the same hill is a real pleasure and it's a great experience to share these magnificent birds with others."

The Cairngorms National Park and the Isle of Skye provide fabulous opportunities to see iconic raptors against a backdrop of mountains, moorland and ancient forest.

- Golden and White-tailed Eagles in stunning mountain and island locations
- A boat trip to see White-tailed Eagles up close
- Secretive Goshawks in ancient Caledonian Pine Forests
- Ospreys breeding on our doorstep and fishing in local lochs
- Hen Harriers and Short-eared Owls quartering open moorlands
- Peregrine and Merlin hunting and dashing after their prey
- Evening trips to look for Long-eared, Tawny and Barn Owls

Dinner together on Saturday evening is followed by coffee and a run through of the week's itinerary.

**2-3** The Cairngorms National Park is a spectacular land of mountains, bleak windswept moorlands and ancient forests, one of the best places in the UK to watch our iconic raptors.

We may start with a full day in Strathdearn, which follows the River Findhorn deep into the Monadhliath Mountains. Here, a wealth of different habitats from woodlands to moorland and exposed mountains, provide habitat for up to twelve species of raptor, including Golden and White-tailed Eagle, Goshawk, Peregrine, Merlin, Osprey, Hen Harrier and Red Kite.

Weather permitting, we shall walk into the mountains on flat gravel tracks and explore the upper reaches of the glen on foot, which can be outstanding for Golden and White-tailed Eagles. Merlin and Peregrine also hunt here and it's not unusual to watch fierce little Merlins mobbing massive eagles. Goshawk and Red Kite are possible and Ospreys regularly fish the river. The scenery in the upper reaches is spectacular and it is a truly wild place.

The RSPB's Reserve at Abernethy consists of ancient pine forest, open moorland and high mountain plateau. This is our best opportunity of finding the elusive 'ghost of the forest' - the Northern Goshawk. We shall keep our eyes peeled for this secretive and elusive raptor during our full day spent in Abernethy Forest exploring remote areas, where there are

"Raptors are certainly the focus of this trip, but there will be much more to see. We'll be looking hard for some of the other Highland specialities and immersing ourselves in unique habitats, with wonderful ambience and scenery in two very different locations."

also chances for Capercaillie, as well as crossbills and Crested Tit.

The area is also good for eagles with Golden and White-tailed hunting over the Reserve. Abernethy is an exceptional habitat and if we explore the quieter areas of the forest it just might reveal its secrets to us.

In the evening, we shall venture out in search of owls. Long-eared, Tawny and Barn Owls are all possible and Short-eared Owls can be found quartering the moors. The days are long at this time of the year, giving us a good chance of finding owls as the sun sets.

**4-6** After breakfast we shall leave for the west coast and the Isle of Skye. We shall journey through Glen Shiel and over the Ratagan Pass, before we descend to Glenelg to catch the famous turntable ferry to Kyleshera on Skye. From the ferry we may see our first island White-tailed Eagles and Otter is always possible.

Once on Skye we shall explore the quieter parts of the island, including the Watermish and Trotternish peninsulas. The scenery on Skye is spectacular and unrivalled in the UK and Trotternish has some of the most iconic geological landmarks in Britain.

We shall search for Golden Eagles around the Quirang and the Old Man of Storr and on the rocky coastlines look for Otters. Hen Harrier, Merlin and Short-eared Owls are rare breeders, but will be target species for us here, however there is so much more to Skye and we can hope to see Great Northern and

Red-throated Divers and breeding waders before they depart for wintering grounds. Passerine species include Skylark, Twite and Linnet and as Skye is relatively under-watched who knows what we might turn up!

One of the highlights of our stay on Skye will be an exclusive trip on a comfortable boat to look for White-tailed Eagles. They can be seen very close from the boat and we may see the birds gliding in to pick fish off the surface, potentially giving great photo opportunities. We may also encounter dolphins and other marine animals and birds.

**7** On our return from Skye we shall cross the Skye Bridge. Weather permitting, we shall take the Bealach na Ba alpine pass through the spectacular mountains of the Applecross Peninsula and then weave our way through Torridon, stopping at Beinn Eighe NNR, a rugged landscape and another chance to find Golden Eagle, as well as other species of raptor. We shall arrive back at The Steading in time for our evening meal, followed by coffee and a look back over the week with a dram or two!

**8** After breakfast on Saturday we say our farewells.
