

# EAST YORKSHIRE

*"This is a wonderful opportunity to visit many of Yorkshire's premier East coast birdwatching sites, which boast all types of prime habitat, from coastal cliffs and dunes to estuaries and wetlands. These places can be amazing in the right conditions and we have the knowledge and experience to tailor this week to ensure the best experience possible."*  
Julian Sykes

Dates Sat 4 - Sat 11 Oct 2025  
Price £2,565  
Deposit £500 Single Supp £475

Leader Julian Sykes

Weather Can be extremely variable at this time of year, so come prepared for everything from rain and wind, to calm autumnal sunshine!

Walking Mostly easy walking on level paths up to 3 miles, with perhaps a little more if rarities require it!

Meals All included from dinner on Day 1 to breakfast on Day 8

Insects Unlikely to be a problem at this time of year, but you may wish to bring repellent

Accom Double, twin and single rooms all ensuite  
A transfer to the hotel can be arranged from York train station

Group 6

## Just some of what we hope to see:

Brambling	Water Rail
Winter thrushes	Red-throated Diver
Redstart	Pink-footed Goose
Bearded Tit	Velvet Scoter
Marsh Harrier	Scarce migrants such as..
Sooty Shearwater	Yellow-browed Warbler
Pomarine Skua	Red-Backed Shrike
Little Gull	Ring Ouzel
Jack Snipe	Rose-coloured Starling
Spotted Redshank	Firecrest
Black Redstart	Wryneck
Barn Owl	Lapland Bunting
Little Owl	Red-breasted Flycatcher
Short-eared Owl	
Woodcock	

An excellent chance to visit birding hotspots and witness the autumn migration. Thousands of birds on the move - from waders and warblers, to pipits, thrushes and seabirds - and rarities too!

- Visit Yorkshire's autumn migration hotspots - Spurn, Flamborough and Filey
- Visit key Yorkshire birding sites such as Blacktoft Sands and Bempton Cliffs
- Yellow-browed Warbler, Red-Backed Shrike, Red-Breasted Flycatcher and Wryneck
- Visit Wildlife Artist Robert Fuller's gallery in the stunning Yorkshire Wolds
- See ringing first hand at a Spurn Bird Observatory demonstration
- Take a 4x4 trip to the end of famous Spurn Point
- Great accommodation and Yorkshire hospitality with birding on the doorstep!

We meet up at our hotel in time for dinner and a chance to discuss the coming week. Our 'well-placed' accommodation means that most of the sites we shall visit are an hour or less away.

**2-7** The Yorkshire coast at this time of year is a thrilling place!! Thousands of birds are on the move and to witness this mass migration as birds head south along the coast is a wonderful experience. We have timed this trip to enjoy migration in action, with common migrants still passing through in good numbers, but also the chance of something a bit rarer - or with luck - very rare indeed!!

East Yorkshire has become renowned as the place to witness autumn migration and has several sites from which to experience this massive annual movement of birds. Spurn Point is perhaps the most famous - its unusual shape acting as a funnel,

which concentrates birds as they move towards the point. Whilst this can be weather dependent, the birding here can be astonishing, with large numbers of common migrants such as pipits, thrushes, finches, Robins and Goldcrests and often plenty of scarcer species too, with double figure numbers of Yellow-browed Warblers and the chance of species such as Richard's Pipit, Firecrest, Wryneck, Shorelark, Lapland Bunting and more. What is more, we shall get an insight into how research on migration is carried out and see birds in the hand, with a ringing demonstration at Spurn Bird Observatory.

We shall also cast our eyes seawards as, at this time of year, Filey Brigg and Flamborough Head provide excellent seawatching opportunities. We'll look out for Manx and Sooty Shearwaters, Arctic, Long-tailed and Pomarine Skuas, divers and flocks of seaduck and geese. Like Spurn, these

*"I can still remember the first time I sat on the cliff-tops of Bempton in the early 1970s, when Gannets were much more scarce than today. I was there as a young boy absolutely fascinated by their aerial magnificence, as they negotiated the uplift from the sheer face below. It is still a thrill to watch these beautiful seabirds in this equally beautiful situation." Julian Sykes*

sites can also be the first landfall for high numbers of birds, with thrushes and Bramblings coming in off the sea and all three sites have had more than their fair share of national rarities.

Each day we shall be keeping an eye on 'what's about' and will be in touch with local birders, so plans may alter rapidly if something very special is found. Anything can turn up, but some years are incredible, such as 2016 when Siberian Accentor, White's Thrush, Eastern Crowned Warbler, Isabelline Wheatear and Black-browed Albatross were exceptional finds. We can't promise the same rarities necessarily, but we can promise an exciting time searching for the unexpected, with the opportunity to polish our skills when it comes to our less familiar warblers, whilst looking out for gems including Pallas's and Dusky Warbler.

Yorkshire has some fabulous Reserves and habitats, wetlands, cliffs, forest, coast and estuarine marsh. We'll visit Blacktoft Sands, where the wetlands and reedbeds are superb at this time of year. Wader passage will include common species such as Dunlin, but should also include Spotted Redshank, Greenshank, Black-tailed Godwit and Ruff. Marsh Harriers hunt over the reeds, where 'pinging' flocks of Bearded Tits can be seen and if we are very lucky, perhaps a Water Rail or Bittern will appear.

At Bempton Cliffs, the huge seabird colonies will have departed, but some of the thousands of Gannets that nest here will still be present at this time of year. This spectacular place can also

provide the chance to see migration and amongst the common migrants, we'll be on the lookout for shrikes, flycatchers, or scarcer warblers. We shall also introduce you to some newer and less well known, but equally impressive, birding hot spots on our daily outings.

East Yorkshire is a varied county, with rich agricultural land providing ideal feeding grounds for large numbers of Lapwing and Golden Plover. The subtly rolling hills of the Yorkshire Wolds, providing habitat for Barn Owls, Skylarks, Red Kite and Brown Hare, feature in a lot of David Hockney's recent work.

We plan to visit Robert Fuller's wildlife art gallery and get a 'behind the scenes' tour of some of the ingenious ways he spies on his local wildlife. His paintings sell all over the world and his trademark, highly-detailed images, have been adopted by the RSPB and the National Trust.

8 After breakfast on our final day we say our farewells. You may wish to extend your holiday by spending time in one of Yorkshire's historic towns or explore further up Yorkshire's east coast, to places such as Whitby and Robin Hood's Bay.

### Outline Itinerary

- Day 1 Meet at our hotel in time for our evening meal  
7 nights at Tickton Grange, Beverley
- Days 2-7 Exploration of the migration hotspots of Spurn Point, Flamborough Head, Filey Brigg and Bempton Cliffs. We'll also seawatch from headlands and visit Blacktoft Sands for wetland and reedbed birds, plus visit the Yorkshire Wolds and the Robert Fuller Art Gallery
- Day 8 After breakfast we say our farewells

**David Constantine:** Yellow-browed Warbler  
**Frank Moffat:** East Yorkshire  
**Simon Eaves:** Jack Snipe  
**Ian Smith:** Lapland Bunting  
**Julian Sykes:** Bearded Tit  
**Mark Denman:** Red-backed Shrike  
**Roy Atkins:** Spotted Redshank
